PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for City of Richardson, Texas

On June 3, 1974, in 39 FR 19466, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Richardson, Texas, as an eligible community and included Map Nos. H 480184 02 and 06 which indicate that Springpark West First Addition, Richardson, Texas, as recorded in Volume 73248, Page 1752 in the Plat Records of Dallas County, Texas, is partially within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that Lots 1 through 9, 17R, and 18, Block A, and Lots 18 through 23, 24R, and 25, Block B of the above mentioned property are not within the Special Flood Hazard Area. Lots 10, 11R, 12R, 13 through 15, and 16R, Block A, and Lots 1, 2, 3, 4R, 5R, 6R, 7R, 8R, 9R, 10, 11R, 12R, 13R, 14R, and 15 through 17, Block B, with the exception of the Floodway Easement as shown on the recorded plat map cited above, are not within the Special Flood Hazard Area. Accordingly, effective May 24, 1974, Map Nos. H 480184 02 and 06 are hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

PART 60—IMMIGRATION; IMMIGRANT LABOR CERTIFICATIONS

Modification of Schedule B Definition

On December 18, 1975, the Department of Labor published at 40 FR 58664 a no-

tice of proposed rulemaking to modify the definition of *Household Domestic Service Workers* at 29 CFR 60.7.

Under the current regulation an alien seeking certification for work in the United States as a household domestic service worker must document one year's full-time paid experience in performing those tasks incident to the maintenance of private households. This experience can only have been acquired as a result of employment in private households.

The proposed regulation provided that the one year's documented paid experience may be acquired in public or private institutions or establishments as well as in private households. It provided, however, that the tasks performed in the public or private institutions or establishments be equivalent to the tasks normally associated with the maintenance of a private household.

The Department invited comments, data and arguments on the proposed regulation until January 19, 1976. Only two comments were received. One comment praised the proposed regulation as realistic and progressive. The other comment expressed the concern that the proposed change might make it more economically difficult to obtain household domestic service workers from Mexico. The Department does not think that the concern expressed by the second comment is well founded since the proposed regulation would loosen, rather than tighten, the requirement on the type of work experience which would be relevant to a certification determination. The Department, therefore, is now publishing the regulation in final form. The Department is amending the language of the regulation somewhat to make it clear that the phrase "work to be performed," as used in the proposed regulation, means the "tasks to be performed as described in the Job Offer for Alien Employment".

Accordingly, 20 CFR 60.7 is amended, effective April 1, 1976, to read as follows:

§ 60.7 Schedules.

SCHEDULE B
OCCUPATIONAL DEFINITIONS
<i>Household Domestic Service Workers</i>

Perform a variety of tasks in private households, including activities such as cleaning, dusting, washing, ironing, making beds, maintaining clothes, marketing, cooking, serving food, and caring for children or disabled persons: Provided, however, that non-certification under this category shall apply only to those workers who have had less than one year of documented full-time paid experience in the tasks to be performed as described in the Job Offer for Alien Employment, working on a live-in or live-out basis in private households, or in public or private institutions or establishments where the worker has performed tasks equivalent to tasks normally associated with the maintenance of a private household.

Signed at Washington, D.C., this 24th day of February, 1976.

Assistant Secretary for
Employment and Training.

**CHAPTER XVII—OCCUPATIONAL SAFETY
AND HEALTH ADMINISTRATION, DE-
PARTMENT OF LABOR**

**PART 1952—APPROVED STATE PLANS
FOR ENFORCEMENT OF STATE STAND-
ARDS**

Oregon Plan; Approval of Plan Supplements

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On December 28, 1972, a notice was published in the FEDERAL REGISTER (37 FR 28628) of the approval of the Oregon Plan and of the adoption of Subpart D of Part 1952 containing the decision. Further, a notice of Approval of Revised Developmental Schedule was published on April 1, 1974, in the FEDERAL REGISTER (39 FR 11881). On October 10, 1975, and December 2, 1975, the State of Oregon submitted supplements to the plan involving completion of developmental steps. The supplements are described below.

2. *Description of the Supplements.* (a) Staff training. The State has submitted a statement certifying the completion of the staff training as described in the official developmental schedule in accordance with 29 CFR 1952.108(d).

(b) Management Information System. The system will operate as a computerized system. The system will provide, among other things, data on inspection type, employee participation, employee discrimination, special programs, number and type of violations, proposed penalties and collection of penalties, employee complaints, safety and health coverage, serious and non-serious penalties and violations, training, time utilization, and contested cases.

(c) Laboratory Accreditation. The State submitted a letter to OSHA from the American Industrial Hygiene Association dated July 2, 1975, announcing the accreditation of the Oregon Occupational Health Laboratory.

3. *Location of the plan and its supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Technical Data Center, Occupational Safety and Health Administration, Room N-3620, 200 Constitution Avenue, NW., Washington, D.C. 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6048, Federal Office Building, 909 First Avenue, Seattle, Washington 98174;

Workmen's Compensation Board, Labor and Industries Building, Room 204, Salem, Oregon 97310.

4. *Public participation.* Under § 1953.2 (c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the Oregon plan supplements described above are consistent with commitments contained in the approved plan, which were previously made available for public comment. Accordingly, it is found that further public notice and comment is unnecessary.

5. *Decision.* After careful consideration, the Oregon plan supplements described in a, b, and c, above are hereby approved under Subpart B of Part 1953 of this chapter. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In addition, Subpart D of 29 CFR Part 1952 is amended to reflect the completion of two developmental steps. Accordingly, § 1952.109 of Subpart D, for the reason stated in 4 above, is amended by adding paragraphs (c) and (d) as follows:

§ 1952.109 Completed developmental steps.

(c) In accordance with § 1952.108(d) Oregon has completed the training as described.

(d) Oregon has developed and implemented a computerized Management Information System.

(Secs. 8(g) (2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g) (2), 667))

Signed at Washington, D.C., this 24th day of February 1976.

MORTON CORN,
Assistant Secretary of Labor.

**PART 1952—APPROVED STATE PLANS
FOR ENFORCEMENT OF STATE STAND-
ARDS**

Nevada Plan: Approved Supplements

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On January 4, 1974, a notice was published in the FEDERAL REGISTER (39 FR 1008) concerning the approval of the Nevada Plan and of the adoption of Subpart W of Part 1952 containing the decision. The State has submitted supplements described as follows: A separate training and consultation section has been established. In this section, four consultants served under the direction of a Training and Consultation Chief. Two consultants are located in Reno, and two are located in Las Vegas.

The consultation staff is separate and autonomous from the enforcement staff. As discussed above, four consultants and a chief will staff the training and consultation section. The remaining staff of fifteen safety and health representatives will be involved full-time in enforcement duties. In addition, two administrative personnel will be added to the program. A Principal Safety Engineer will provide coordination with field office personnel and handle standards interpretations, and an Administrative Assistant will be responsible for Federal reporting, personnel coordination, and editing of legislative changes and publications. A full-time Standards Officer will no longer be needed, as the State is adopting Federal standards. Remaining standards activity will be the responsibility of the Principal Safety Engineer. Finally, the position of Statistical Clerk will be changed to Principal Clerk Typist. In addition, revised position descriptions to upgrade the qualifications of field personnel and reflect the new staffing pattern were approved by the Nevada State Personnel Advisory Commission on April 4, 1975.

On September 25, 1975, notice of submission of a supplement to the Nevada plan involving an evaluation change and State initiated changes was published in the FEDERAL REGISTER (40 FR 44158) and interested persons were afforded thirty days from the date of publication to submit written comments.

2. *Issues.* No public comments on the supplements were received. The changes meet all current requirements, are administrative in nature and present no substantive issues.

3. *Decision.* After careful consideration, the Nevada plan supplements described above are approved under Part 1953 of this chapter. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. Accordingly, Subpart W of 29 CFR Part 1952 is hereby amended as set forth below.

Subpart W of 29 CFR Part 1952 is amended by adding a new section as follows:

§ 1952.294 Completed developmental steps.

A separate and autonomous on-site consultation program became effective on July 1, 1975, and was approved by the Assistant Secretary on February 26, 1976.

(Secs. 8(g), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g), 667))

Signed at Washington, D.C. this 26th day of February 1976.

MORTON CORN,
Assistant Secretary of Labor.

**PART 1952—APPROVED STATE PLANS
FOR ENFORCEMENT OF STATE STAND-
ARDS**

Approval of Connecticut Plan Supplements

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970

(29 U.S.C. 667) (hereinafter called the Act) for the review of changes and progress in the development and implementation of State Plans which have been approved under section 18(c) of the Act and Part 1902 of this title. On January 4, 1974, a notice was published in the FEDERAL REGISTER (39 FR 1012) of the approval of the Connecticut plan and of the adoption of Subpart X of Part 1952 containing the decision. On September 16, 1974 and January 30, 1975, the State of Connecticut submitted supplements to the plan involving developmental and State initiated changes (see Subpart B and E of 29 CFR Part 1953). On February 21 and September 25, 1975, notices were published in the FEDERAL REGISTER (40 FR 7686 and 44157) concerning the submission of these supplements to the Assistant Secretary of Labor for Occupational Safety and Health and the fact that the question of their approval was in issue before him. Interested persons were afforded at least 30 days from the date of publication of the proposed supplements in the FEDERAL REGISTER to submit written comments or requests for an informal hearing concerning these supplements. The supplements consist of the Governor's Executive Order Number Twenty-Seven, the Affirmative Action Plan and the revision of Connecticut's Target Industries Program.

2. *Issues.* The Governor's Executive Order Number Twenty-Seven is in response to the State commitment under the requirements of 29 CFR 1952.303(e) of the State's developmental schedule to establish a Safety and Health Program to cover State employees. This directive implements the Connecticut Occupational Safety and Health Act wherein State and municipal employees are protected by the same standards, inspections, citations, discrimination procedures, recordkeeping and all remaining features of the Connecticut Act, as employees in the private sector.

Connecticut's Affirmative Action Plan is in response to the commitment made in the timetable in Appendix IV of its 18(b) plan to implement the Governor's Executive Order Number Eighteen, which reaffirms the State's intention to provide equal employment opportunity within the State service for all its citizens. The Affirmative Action Plan, among other things, identifies the organization responsible for developing programs, defines specific areas of concern, delegates responsibilities for assessing needs and compiling data, and outlines provisions for monitoring and evaluating the program. There were no public comments received on this supplement.

In addition to the foregoing developmental changes, the State has submitted as a State-initiated change a revised Target Industries Program. This revision reflects the results of the first full year of recordkeeping. Examination of these results has focused attention on those industries with high rates of job-related injuries. These high accident job rates include: concrete work, roofing and metal work, lumber and wood products, iron

and steel industries and concrete products. The Assistant Secretary has reviewed this supplement to determine its impact on the "at least as effective as" status of the plan.

3. *Decision.* After consideration of these plan supplements, it is hereby decided that they are approved under Subpart B and E of 29 CFR Part 1953. The decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In accordance with the decision, Subpart X of 29 CFR Part 1952 is amended as set forth below effective March 2, 1976.

Section 1952.304 is amended through the addition of new paragraphs (d) and (e) to read as follows:

§ 1952.304 Completed developmental steps.

(d) In accordance with § 1952.303(e), the Governor's Executive Order Number Twenty-Seven was issued implementing the coverage of State employees under the Connecticut Occupational Safety and Health Act.

(e) An approved Affirmative Action Plan has been adopted.

(Secs. 8(g)(2), 18 Pub. L. 91-596, 84 Stat. 1600, 1608; (29 U.S.C. 657(g)(2), 677))

Signed at Washington, D.C., this 26th day of February 1976.

MORTON CORN,
Assistant Secretary of Labor.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 484-4]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Clarifying Amendments

The Environmental Protection Agency is today taking action to clarify the contents of State Implementation Plans under the Clean Air Act.

BACKGROUND

At the heart of the Clean Air Act are "State Implementation Plans" ("SIP's") for the 55 States and territories. SIP's are the primary means by which the National Ambient Air Quality Standards are to be attained and maintained. SIP measures originate in two basic ways: (1) A State may develop its own measures and submit them to EPA for approval under section 110(a); and (2) to the extent a State's own measures are inadequate, EPA may develop its own substitute measures and promulgate them under section 110(c).

It is important that the contents of each SIP be readily ascertainable because SIP requirements are enforceable by both the State and the Federal government. Moreover, citizens may bring suits in Federal courts under section 304 to enforce SIP requirements.

In the amendments appearing below, EPA is making changes in the way it formally identifies those measures which the States develop for EPA approval under section 110(a).

PRESENT PRACTICE

EPA publishes all SIP approval, disapproval, and promulgation actions in the FEDERAL REGISTER, codified under 40 CFR Part 52. Part 52 contains a subpart for each State and territory. All regulations promulgated by EPA under section 110(c) are printed in their entirety in Part 52. Because of space limitations, however, EPA does not publish the terms of the State's own measures which EPA approves (or disapproves) under section 110(a). Rather, the present scheme for formalizing approvals and disapprovals of State-submitted material is as follows:

In each subpart of part 52, there is a section entitled "Identification of Plan." Paragraph (a) of each Identification section lists the title of each plan. Paragraph (b) of each Identification section lists the date the State submitted its original plan. Paragraph (c) of each Identification section lists a series of dates on which the State submitted "supplemental information." This "supplemental information" encompasses a number of things, including new regulations, source compliance schedules, revised regulations, and reports. EPA's practice has been to denote each "supplemental" submission merely by listing its date. (There is also a paragraph (d) for a few States which lists "plan revisions" by date only. There is no significant distinction between "plan revisions" and "supplemental information" as these terms have been used in part 52.)

Each subpart also contains a statement to the effect that the State's submission is approved except as otherwise provided in the subpart. Thus, everything noted in the "Identification of Plan" section, including all of the State-submitted materials listed merely by date in paragraph (c) (and (d) in a few cases) of the Identification section, is considered an approved part of the SIP unless otherwise provided in the subpart.

NEW PRACTICE

EPA is today amending paragraph (c) of the "Identification of Plan" section in each subpart of part 52 for purposes of clarification. Over the last few years, States have submitted so many new or modified SIP provisions that it has become increasingly confusing to denote each submission merely by listing its date. Accordingly, each subpart is amended below to provide a more detailed explanation of each submission.

For instance, prior to today's action, one could learn from part 52 only that EPA had approved Alabama's submission of May 27, 1974. With today's amendments, one can also learn that EPA has approved Alabama's revision to its primary aluminum plant regulation (4.10) and its redefinition of the

term "solid particulate matter" (1.2.1).

It should be noted that paragraph (c) of each Identification section now refers to all submissions as "plan revisions." EPA is using the term "revision" here in the broadest sense to indicate all changes and supplements to the original State submission. A perusal of the new paragraphs below shows that items of a non-regulatory nature such as letters, reports, and air quality data are listed for some States. Many of these types of "revisions," which do not impose requirements and are not really enforceable, are of course not the type of plan revisions which must be preceded by public hearings in accordance with section 110 and 40 CFR Part 51. (Since the distinction in a few subparts between "supplemental information" and "plan revisions" caused confusion and was at best nebulous, it is being dropped. Thus there will no longer be a separate paragraph (d) in any Identification section. Items previously listed in a paragraph (d) will be listed along with all other "plan revisions" in paragraph (c).)

CONCLUSION

One seeking to determine the current requirements of a SIP should thus keep in mind the following points. Those measures promulgated by EPA will appear in complete text in the applicable subpart of 40 CFR Part 52. State-submitted measures approved by EPA will constitute every measure listed in the "Identification of Plan" section which is not disapproved elsewhere in the same subpart. (Paragraph (c) of each Identification of Plan section therefore lists all State submissions for which EPA approval/disapproval action is no longer pending; it does not merely list approved submissions.)

The complete texts of the State submissions listed in each Identification of Plan section may be inspected at (1) the Public Information Reference Unit, Room 2922 (EPA library), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460; (2) the EPA Regional Office for the applicable State (see 40 CFR 52.16 for a list); and (3) the appropriate State air pollution control agency.

The Administrator hereby finds for good cause that it would be unnecessary and impracticable to subject these amendments to notice and public comment procedures or to delay their effectiveness since they merely clarify existing lists and impose no additional requirements.

(Secs. 110, 301, Clean Air Act, as amended (42 U.S.C. 1857c-5, 1857g))

Dated: February 25, 1976.

RUSSELL E. TRAIN,
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart B—Alabama

1. In § 52.50, paragraph (c) is revised to read as follows:

§ 52.50 Identification of plan.

(c) The plan revisions listed below were submitted on the dates specified.

(1) Letter informing Governor of Florida of submittal of Alabama Implementation Plan submitted on March 21, 1972, by the Alabama Air Pollution Control Commission.

(2) Compliance schedules submitted on April 18, 1972, by the Alabama Air Pollution Control Commission.

(3) Clarifying comments on the plan submitted on April 28, 1972, by the Alabama Air Pollution Control Commission.

(4) Semi-annual report, miscellaneous non-regulatory additions to the plan, compliance schedules and miscellaneous regulatory additions to Chapters 3, 4, 5 and 9 submitted on February 15, 1973, by the Alabama Air Pollution Control Commission.

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Asulam and 3,5-Dimethyl-4-(methylthio) phenyl methylcarbamate

The Environmental Protection Agency (EPA) has promulgated regulations with respect to the establishment of tolerances for the following pesticide chemicals in Title 40 of the Code of Federal Regulations, Part 180, Subpart C:

Pesticide chemical	Section No.	Promulgation date
Asulam	40 CFR 180.360	40 F.R. 25591, June 17, 1975.
3,5-Dimethyl-4-(methylthio) phenyl methylcarbamate	40 CFR 180.320	40 F.R. 50729, Dec. 30, 1975.

These pesticide chemicals are members of the class of cholinesterase-inhibiting pesticides and were so identified at the time tolerances were established. Pesticides which have been identified as cholinesterase-inhibitors are listed in 40 CFR 180.3(e)(5). This list is being amended at this time by alphabetically inserting the pesticide chemicals specified above in the list. In addition, because

of the number of amendments to 40 CFR 180.3 over the years, the Office of the Federal Register has requested that this portion of the regulations be recodified to untangle any editorial confusion caused by the many amendments to this section. Therefore, 40 CFR 180.3 is reproduced in its entirety without change, except with respect to § 180.3(e)(5) as specified.

Accordingly, the Agency is amending 40 CFR 180.3 effective March 2, 1976, to read as set forth below.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a))

Dated: February 24, 1976.

DOUGLAS D. CAMPT,
Acting Deputy Assistant Administrator for Pesticide Programs.

Section 180.3 is amended by alphabetically inserting "Asulam (methyl sulfanilic carbamate)" and "3,5-Dimethyl-4-(methylthio) phenyl methylcarbamate and its cholinesterase-inhibiting metabolites" into 40 CFR 180.3(e)(5) as follows. § 180.3 is reproduced in its entirety below, without any further changes, as an aid to the reader.

§ 180.3 Tolerances for related pesticide chemicals.

(a) Pesticide chemicals that cause related pharmacological effects will be regarded, in the absence of evidence to the contrary, as having an additive deleterious action. (For example, many pesticide chemicals within each of the following groups have related pharmacological effects: Chlorinated organic pesticides, arsenic-containing chemicals, metallic dithiocarbamates, cholinesterase-inhibiting pesticides.)

(b) Tolerances established for such related pesticide chemicals may limit the amount of a common component (such as As_2O_3) that may be present, or may limit the amount of biological activity (such as cholinesterase inhibition) that may be present, or may limit the total amount of related pesticide chemicals (such as chlorinated organic pesticides) that may be present.

(c) (1) Where tolerances for inorganic bromide in or on the same raw agricultural commodity are set in two or more sections in this part, the overall quantity of inorganic bromide to be tolerated from use of two or more pesticide chemicals for which tolerances are established is the highest of the separate applicable tolerances. For example, where the bromide tolerance on lima beans from ethylene dibromide soil treatment is 5 parts per million and on lima beans from methyl bromide fumigation is 50 parts per million, the overall inorganic bromide tolerance for lima beans grown on ethylene dibromide treated soil and also fumigated with methyl bromide after harvest is 50 parts per million.

(2) Where tolerances are established in terms of inorganic bromide residues only from use of organic bromide fumigants on raw agricultural commodities, such tolerances are sufficient to protect the public health and no additional concurrent tolerances for the organic pesticide chemicals from such use are

necessary. This conclusion is based on evidence of the dissipation of the organic pesticide or its conversion to inorganic bromide residues in the food when ready to eat.

(d) (1) Where tolerances are established for both calcium cyanide and hydrogen cyanide on the same raw agricultural commodity, the total amount of such pesticides shall not yield more residue than that permitted by the larger of the two tolerances, calculated as hydrogen cyanide.

(2) Where tolerances are established for residues of both O,O-diethyl S-[2-(ethylthio) ethyl] phosphorodithioate and demeton (a mixture of O,O-diethyl O-(and S-)[2-(ethylthio) ethyl] phosphorothioates) on the same raw agricultural commodity, the total amount of such pesticides shall not yield more residue than that permitted by the larger of the two tolerances, calculated as demeton.

(3) Where tolerances are established for both terpene polychlorinates (chlorinated mixture of camphene, pinene, and related terpenes, containing 65-66 percent chlorine) and toxaphene (chlorinated camphene containing 67-69 percent chlorine) on the same raw agricultural commodities, the total amount of such pesticides shall not yield more residue than that permitted by the larger of the two tolerances, calculated as a chlorinated terpene of molecular weight 396.6 containing 67 percent chlorine.

(4) Where a tolerance is established for more than one pesticide containing arsenic found in, or on a raw agricultural commodity, the total amount of such pesticide shall not exceed the highest established tolerance calculated as As_2O_3 .

(5) Where tolerances are established for more than one member of the class of dithiocarbamates listed in paragraph (e) (3) of this section on the same raw agricultural commodity, the total residue of such pesticides shall not exceed that permitted by the highest tolerance established for any one member of the class, calculated as zinc ethylenebisdithiocarbamate.

(6) Where tolerances are established for residues of both S,S,S-tributyl phosphorotrithioate and tributyl phosphorotrithioate in or on the same raw agricultural commodity, the total amount of such pesticides shall not yield more residue than that permitted by the higher of the two tolerances, calculated as S,S,S-tributyl phosphorotrithioate.

(7) Where tolerances are established for residues of α -naphthaleneacetamide and/or α -naphthaleneacetic acid in or on the same raw agricultural commodity, the total amount of such pesticides shall not yield more residue than that permitted by the higher of the two tolerances, calculated as α -naphthaleneacetic acid.

(8) Where tolerances are established for residues of O,S-dimethyl phosphoramidothioate, resulting from the use of acephate (O,S-dimethyl acetylphosphoramidothioate) and/or O,S-dimethyl phosphoramidothioate on the same agricultural commodity, the total amount of O,S-dimethyl phosphoramidothioate
